SUMMARY

Passionate about Machine Learning and Web Development, with expertise in model development, algorithm optimization, and interactive UI design. Seeking opportunities to integrate AI with web technologies to create innovative solutions.

PROJECTS

- **Medical Insurance Cost Prediction**

  ML Model for cost prediction
  - **Model**: Achieved 78% accuracy with Linear Regression.
  - **Applications**: Enhances accessibility and virtual interfaces.

- **Temperature Converter**

  Web-based tool using HTML, CSS, JS
  - **Functionality**: Converts temperature between Celsius, Fahrenheit, and Kelvin.
  - **Instant Conversion**: Real-time temperature conversion with a single click.

SKILLS

- **Programming Languages**: Java, C++, Python, C

- **ML & AI**: Machine Learning, Deep Learning, NLP

- **Computer Science**: Data Structures (Java)

- **Soft Skills**: Problem-solving, Time Management, Teamwork

EDUCATION

- **CMR Engineering College** — Medchal, TG
  B.Tech - CSE (AI & ML), 9.02 CGPA — *2022 – 2026*

- **Sri Chaitanya Junior College** — Madinaguda, TG
  Intermediate, 95% — *2020 – 2022*

- **Bharatiya Vidya Bhavan's Public School** — BHEL, TG
  CBSE, 86% — *2020*

CERTIFICATIONS

- **Machine Learning Algorithms** — Great Learning

- **Bronze Certificate** — Smart Interviews

- **CSS Training Completion** — IIT Bombay
